

## Rocky Mountain Rugby COVID-19 Return To Play Safety Plan Checklist

	Develop a COVID-19 Return To Play Safety Plan	
	The Plan names a Club Compliance Officer	
	The Plan identifies a dedicated isolation area for management of an individual who becomes unwell at the facility.	
	The Plan requires mask-wearing at all times and physical distancing for all non-playing participants	
	The Plan describes how the club is cohorting at each Return To Play Stage	
	The Plan includes a COVID-19 Case Management Plan	
	The Plan requires the use of a pre-screening participation form in order to attend any club event.	
The Participation form must collect the following information for <i>EACH EVENT</i> :		
	Date of the event	
	Location of the event (address or coordinates)	
	Names of participants (coaches, players, support staff)	
	Phone number of each participants	
	Email address of each participant	
	Temperature (Actual temperature or asking a question such as, "Does the participant have a temperature at 99.6 Degrees F or below?")	
0	Requesting if the participant is currently experiencing symptoms of COVID-19 (Fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea)	
	If the person has been in close physical contact within the last 14 days with anyone who is known to have COVID-19 or anyone who has symptoms consistent with COVID-19	
	If the person is currently waiting on results for a PCR COVID-19 test.	

Last Updated: April 2021

## The COVID-19 Case Management Plan must include:

A Requirement that a member that tests positive for COVID-19 immediately isolate for 10 days from the date of the positive test.
A Requirement for the Club Coordinator or other delegated individual to inform and isolate close contacts of the infected individual based on training, pod, and/or match records
A Requirement to suspend further team or club activities for no less than 10 days.
A Requirement for the Club Coordinator or other delegated individual to inform all participating individuals of the confirmed case and follow CDC (or your individual state) guidelines for possible symptom recognition
A Requirement for the Club Coordinator to coordinate and cooperate with their Local Public Health Agency when contact-tracing efforts are being made upon a positive COVID test from a Club member.
A Requirement for the Club Coordinator to inform their Executive Director or League  Commissioner upon a positive case within the Club if that participant was at a club event 14 days prior to the positive test result.
A Requirement for Club members that are experiencing symptoms of COVID-19 infection: to isolate (stay away from others) until they have no fever for at least 24 hours (without using medicine that reduces fevers), AND other symptoms have improved (for example, when your cough or shortness of breath have improved), AND at least 10 days have passed since their symptoms first appeared.
A Requirement for Club members that have had close contact with a person who either has a positive COVID test or experiences symptoms - even early symptoms - of COVID quarantine and not attend practice for at least 10 days. Early symptoms could include a combination of cough, body aches, fatigue, and chest tightness. Some people may not develop a fever until several days into the illness.
A Requirement for Club members who are vaccinated that have had close contact with a person who either has a positive COVID test or experiences symptoms BUT it is less than two weeks since the completed vaccine series, to quarantine and not attend practice for at least 10 days.
At minimum: all coaching staff, president or vice-president, and at least two player leaders complete the World Rugby COVID-19 Return To Play Awareness for Coaches & Players Course and attach each certificate to this signed document
